

Seeds of Hope

Plant seeds to help us grow nutritious food for everyone to enjoy, particularly those in need.

Learn about seed saving and take some home to begin your own garden adventure.

Each onsite Flourish PYO junior education session runs for approximately 45 minutes to 1 hour, commencing with an engaging activity, followed by planting, harvesting or a combination of both. Our sessions are designed to provide children with a connection to and understanding of nature and nutritious food in the context of community. We hope that by encouraging children to take their next step in exploring fresh fruit, herbs and vegetables in a fun, adventurous setting that they will go on to embrace these foods as part of their regular daily intake and enjoy a bright, healthy future.

Programs are delivered on Tuesdays 11-3 and Thursdays 9-3 during school terms.

Contact us to make a booking on 0435 418 646 or email us at Flourishpyo@outlook.com
